

## **Public Safety Telecommunicator Definition- Employer Stakeholder Group**

**September 15th, 2025**

For the consideration of the work group this afternoon, here is a definition of "Public Safety Telecommunicator" which has used the definition from MN Stat 403.02 Subd. 17C:

"Public safety telecommunicator" means a public employee, as defined in Section 353.01, employed by a public safety answering point whose primary responsibility is, or directly supervises those whose primary responsibility is, to answer incoming emergency telephone calls or provide for the appropriate emergency response either directly or through communication with the appropriate public safety answering point.

**Additionally, it would be preferred that the definitions include an employer certification processes that may be outside these statutory definitions but spelled out elsewhere.**
