Subject: Support Teacher Pension Reform
Date: Saturday, April 1, 2023 7:32:40 PM

I am writing this email in support of HF3100 (Her) and SF3162 (Frentz)

MY reasons are as follows:

- a) Minnesota Teacher Retirement ranks almost at the bottom when compared nationally
- b) Teaching until I am 67 will not be good for student, school district budgets, and my mental health
- c) Current teachers are slated to put more into pension than any other teacher group in history but yet will be asked to teach roughly 7 years longer
- d) Teacher/student age disconnection and relatability

Thank you for your time!
