Subject: MN Teacher Pension Reform
Date: Tuesday, March 28, 2023 8:34:20 PM

Two teachers I personally know quit this week - in the middle of the year - walked out - done. Both were mid-career veterans. MN schools are going to be in a world of hurt if major pension reform equitable to the Rule of 90 doesn't happen this session. Teachers are angry, insulted, and fed up - they will be walking out in droves. College education grads will find other employment - my own daughter included. Pensions used to be one of the major draws of otherwise thankless public service careers, and now it's basically shriveled up into an insult. YOU MUST ACT QUICKLY AND DECISIVELY IN THE INTEREST OF TEACHERS AND MN EDUCATION! Raise those budget targets and offer pensions in line with those provided over the past 30+ years.

Sara Strege
28 year teaching veteran.
