51.2        Sec. 7. Minnesota Statutes 2024, section 424A.092, subdivision 2, is amended to read:

51.3            Subd. 2. **Determination of accrued liability.** (a) ~~Beginning with the calculation~~  
51.4 ~~performed in 2021 for the 2022 calendar year,~~ Each firefighters relief association which  
51.5 pays a lump-sum service pension shall determine the accrued liability of the special fund  
51.6 of the firefighters relief association relative to each active member of the relief association,  
51.7 calculated using the applicable appendix to the standards for actuarial work established by  
51.8 the Legislative Commission on Pensions and Retirement under section 3.85, subdivision

51.10          (b) ~~For calendar years before 2022, each firefighters relief association shall determine~~  
51.11 ~~the accrued liability of the special fund of the firefighters relief association relative to each~~  
51.12 ~~active member of the relief association, calculated individually using the following table:~~

	Cumulative Year	Accrued Liability
	.....	.....
	1	\$ 60
	2	124
	3	190
	4	260
	5	334
	6	410
	7	492
	8	576
	9	666
	10	760
	11	858
	12	962
	13	1070
	14	1184
	15	1304
	16	1428
	17	1560
	18	1698
	19	1844
	20	2000
	21 and thereafter	100 additional per year

~~As set forth in the table the accrued liability for each member of the relief association corresponds to the cumulative years of active service to the credit of the member. The accrued liability of the special fund for each active member is determined by multiplying the accrued liability from the chart by the ratio of the lump-sum service pension amount currently provided for in the bylaws of the relief association to a service pension of \$100 per year of service.~~

~~(e)~~ (b) If a member has fractional service as of December 31, the figure for service credit to be used for the determination of accrued liability pursuant to this section shall be rounded to the nearest full year of service credit. The total accrued liability of the special fund as of December 31 shall be the sum of the accrued liability attributable to each active member of the relief association.

~~(d)~~ (c) To the extent that the state auditor considers it to be necessary or practical, the state auditor may specify and issue procedures, forms, or mathematical tables for use in performing the calculations of the accrued liability for deferred members pursuant to this subdivision.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2024, section 424A.092, subdivision 3, is amended to read:

Subd. 3. **Financial requirements of relief association; minimum obligation of municipality.** (a) During the month of July, the officers of the relief association shall determine the overall funding balance of the special fund for the current calendar year, the financial requirements of the special fund for the following calendar year and the minimum obligation of the municipality with respect to the special fund for the following calendar year in accordance with the requirements of this subdivision.

(b) The overall funding balance of the special fund for the current calendar year must be determined in the following manner:

(1) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the current year must be calculated under subdivisions 2 and 2a, if applicable.

(2) The total present assets of the special fund projected to December 31 of the current year, including receipts by and disbursements from the special fund anticipated to occur on or before December 31, must be calculated. To the extent possible, for those assets for which a market value is readily ascertainable, the current market value as of the date of the calculation for those assets must be utilized in making this calculation. For any asset for

53.1 which no market value is readily ascertainable, the cost value or the book value, whichever  
53.2 is applicable, must be utilized in making this calculation.

53.3 (3) The amount of the total present assets of the special fund calculated under clause (2)  
53.4 must be subtracted from the amount of the total accrued liability of the special fund calculated  
53.5 under clause (1). If the amount of total present assets exceeds the amount of the total accrued  
53.6 liability, then the special fund is considered to have a surplus over full funding. If the amount  
53.7 of the total present assets is less than the amount of the total accrued liability, then the  
53.8 special fund is considered to have a deficit from full funding. If the amount of total present  
53.9 assets is equal to the amount of the total accrued liability, then the special fund is considered  
53.10 to be fully funded.

53.11 (c) The financial requirements of the special fund for the following calendar year must  
53.12 be determined in the following manner:

53.13 (1) The total accrued liability of the special fund for all active and deferred members of  
53.14 the relief association as of December 31 of the calendar year next following the current  
53.15 calendar year must be calculated under subdivisions 2 and 2a, if applicable.

53.16 (2) The increase in the total accrued liability of the special fund for the following calendar  
53.17 year over the total accrued liability of the special fund for the current year must be calculated.

53.18 (3) The amount of anticipated future administrative expenses of the special fund must  
53.19 be calculated by multiplying the dollar amount of the administrative expenses of the special  
53.20 fund for the most recent prior calendar year by the factor of 1.035.

53.21 (4) If the special fund is fully funded, the financial requirements of the special fund for  
53.22 the following calendar year are the total of the amounts calculated under clauses (2) and  
53.23 (3).

53.24 (5) If the special fund has a deficit from full funding, the financial requirements of the  
53.25 special fund for the following calendar year are the financial requirements of the special  
53.26 fund calculated as though the special fund were fully funded under clause (4) plus an amount  
53.27 equal to one-tenth of the original amount of the deficit from full funding of the special fund  
53.28 as determined under clause (2) resulting either from an increase in the amount of the service  
53.29 pension occurring in the last ten years or from a net annual investment loss occurring during  
53.30 the last ten years until each increase in the deficit from full funding is fully retired. The  
53.31 annual amortization contribution under this clause may not exceed the amount of the deficit  
53.32 from full funding.

(6) If the special fund has a surplus over full funding, the financial requirements of the special fund for the following calendar year are the financial requirements of the special fund calculated as though the special fund were fully funded under clause (4) reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the special fund.

(d) The minimum obligation of the municipality with respect to the special fund is the financial requirements of the special fund reduced by the amount of any fire state aid and police and firefighter retirement supplemental state aid payable under chapter 477B and section 423A.022 reasonably anticipated to be received by the municipality for transmittal to the special fund during the following calendar year, and an amount of interest on the assets of the special fund projected to the beginning of the following calendar year calculated at the rate of five percent per annum, ~~and the amount of any contributions to the special fund required by the relief association bylaws from the active members of the relief association reasonably anticipated to be received during the following calendar year.~~ A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

**EFFECTIVE DATE.** This section is effective January 1, 2026.

(c) The municipality shall provide for at least the minimum obligation of the municipality with respect to the special fund of the relief association by tax levy or from any other source of public revenue.

(d) The municipality may levy taxes for the payment of the minimum municipal obligation without any limitation as to rate or amount and irrespective of any limitations imposed by other provisions of law upon the rate or amount of taxation until the balance of the special fund or any fund of the relief association has attained a specified level. In addition, any taxes levied under this section must not cause the amount or rate of any other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced.

(e) If the municipality does not include the full amount of the minimum municipal obligations in its levy for any year, the officers of the relief association shall certify that amount to the county auditor, who shall spread a levy in the amount of the certified minimum municipal obligation on the taxable property of the municipality.

(f) If the state auditor determines that a municipal contribution actually made in a plan year was insufficient under section 424A.091, subdivision 3, paragraph (c), clause (5), the state auditor may request a copy of the certifications under this subdivision from the relief association or from the city. The relief association or the city, whichever applies, must provide the certifications within 14 days of the date of the request from the state auditor.

56.5 special fund of the relief association and the minimum obligation of the municipality with

56.22 or rate of any other taxes levied in that year or to be levied in a subsequent year by the  
56.23 municipality which are subject to a limitation as to rate or amount to be reduced.

56.24 (f) If the municipality does not include the full amount of the minimum municipal

(c) "Approved actuary" means:

(1) a person who is regularly engaged in the business of providing actuarial services and who is a fellow in the Society of Actuaries; or

(e) "Experience study" means a report providing experience data and an actuarial analysis of the adequacy of the actuarial assumptions on which actuarial valuations are based.

(2) 40 percent of the difference between the actual net change in the market value of total assets between the June 30 that occurred two years earlier and the June 30 that occurred three years earlier and the computed increase in the market value of total assets over that fiscal year period if the assets had earned a rate of return on assets equal to the annual percentage investment return assumption used in the actuarial valuation for the July 1 that occurred three years earlier;

(g) "Unfunded actuarial accrued liability" means the total current and expected future benefit obligations, reduced by the sum of the actuarial value of assets and the present value of future normal costs.

~~(h) "Pension benefit obligation" means the actuarial present value of credited projected benefits, determined as the actuarial present value of benefits estimated to be payable in the future as a result of employee service attributing an equal benefit amount, including the effect of projected salary increases and any step rate benefit accrual rate differences, to each year of credited and expected future employee service.~~

70.1 Sec. 4. Minnesota Statutes 2024, section 356.215, subdivision 11, is amended to read:

70.2 Subd. 11. **Amortization contributions.** (a) ~~In addition to the exhibit indicating the level~~  
70.3 ~~normal cost,~~ The actuarial valuation of ~~the retirement~~ each pension plan listed in subdivision  
70.4 8, paragraph (a), other than the legislators retirement plan and relief association plans, must  
70.5 contain an exhibit ~~for financial reporting purposes~~ indicating the additional annual  
70.6 contribution sufficient to amortize on a level percent of payroll basis the unfunded actuarial  
70.7 accrued liability ~~and must contain an exhibit indicating the additional contribution sufficient~~  
70.8 ~~to amortize the unfunded actuarial accrued liability.~~ For the retirement plans listed in  
70.9 subdivision 8, paragraph (a), ~~but excluding the legislators retirement plan, the Bloomington~~  
70.10 ~~Fire Department Relief Association, and the local monthly benefit volunteer firefighter~~  
70.11 ~~relief associations, the additional contribution must be calculated on a level percentage of~~  
70.12 ~~covered payroll basis by the established date for full funding in effect when the valuation~~  
70.13 ~~is prepared, assuming annual payroll growth at the applicable percentage rate set forth in~~  
70.14 ~~the appendix described in subdivision 8, paragraph (c).~~ For the legislators retirement plan,  
70.15 ~~the additional annual contribution must be calculated on a level annual dollar amount basis.~~  
70.16 resulting from any of the following changes, over the period specified for that change, except  
70.17 that the pension plan's unfunded actuarial accrued liability as of July 1, 2024, must be  
70.18 amortized over a period that ends June 30, 2048:

70.19 (1) experience gain or loss: 15 years;

70.20 (2) assumption or method change: 20 years;

70.21 (3) benefit change for active members: 15 years;

70.22 (4) long-term benefit change for inactive members: 15 years;

70.23 (5) short-term benefit change for inactive members: the number of years during which  
70.24 the benefit change will be in effect; and

70.25 (6) an annual contribution that is more or less than the actuarially determined contribution:  
70.26 15 years.

70.27 (b) The amortization periods specified in paragraph (a) apply:

70.28 (1) unless the standards for actuarial work state otherwise; and

70.29 (2) except that, for the legislators retirement plan, the additional annual contribution  
70.30 sufficient to amortize the unfunded actuarial accrued liability must be calculated on a level  
70.31 dollar basis with an amortization period of one year.

~~(b) This paragraph applies only if the calculation under this paragraph for a retirement plan results in an established date for full funding that is earlier than the established date for full funding applicable to the retirement plan under paragraph (c). For any retirement plan, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:~~

~~(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;~~

~~(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the investment return assumption specified in subdivision 8 in effect before the change;~~

~~(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;~~

~~(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable investment return assumption specified in subdivision 8 in effect after any applicable change;~~

~~(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);~~

~~(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the investment return~~

72.1 ~~assumption specified in subdivision 8 in effect after any applicable change, rounded to the~~  
72.2 ~~nearest integral number of years, but not to exceed 30 years from the end of the plan year~~  
72.3 ~~in which the determination of the established date for full funding using the procedure set~~  
72.4 ~~forth in this clause is made and not to be less than the period of years beginning in the plan~~  
72.5 ~~year in which the determination of the established date for full funding using the procedure~~  
72.6 ~~set forth in this clause is made and ending by the date for full funding in effect before the~~

72.9 ~~actuarial valuation was prepared and the date obtained is the new established date for full~~  
72.10 ~~funding.~~

72.11 ~~(e) The established date for full funding is the date provided for each of the following~~

72.20 ~~(iv) for the judges retirement plan, the established date for full funding is June 30, 2048;~~
