General Summary of Delete-Everything Amendment H1978-6A

Article 1: Various Clarifications and Corrections. The article amends various provisions in 2006 legislation, chiefly the 2006 omnibus retirement bills, to correct errors or omitted language that were identified by the Commission staff in preparing the summary of the 2006 pension legislation or by the Office of the Revisor of Statutes, and also amends various provisions in Minnesota Statutes, Chapter 13, the data privacy statutes; Chapter 126C, the education funding statutes; Chapter 353, the Public Employees Retirement Association statutes; Chapter 354A, the first class city teacher retirement fund associations' statutes; Chapter 354B, the Individual Retirement Account Plan of the Minnesota State Colleges and Universities System (MnSCU) provisions; Chapter 355, the public employee Social Security coverage provisions; and Chapter 423A, the local police and paid firefighter relief association state aid and benefit provisions, by eliminating references to the former Minneapolis Teachers Retirement Fund Association (MTRFA) and by correcting other provisions previously applicable to the former MTRFA.

Article 2: Administrative Provisions. The article makes accrual date revisions in the Legislators and Judges plans to make them consistent with other Minnesota State Retirement System (MSRS) plans; clarifies University of Minnesota employee coverage; permits General State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-General) coverage for incidental employment as state employees by teachers; revises interest payment requirements on authorized unpaid leaves of absence and requires full actuarial value payment if payment is not received within one year of the end of the leave; removes the death while active or deferred five-year, term-certain survivor option and removes the 75 percent of prior pay limit on those benefit amounts; clarifies applicable contribution rates on breaks in service to provide military service; clarifies the application of MSRS law to State Fire Marshal employees; adds an anti-garnishment provision to the health care savings account law; clarifies Unclassified Employees Retirement Program of the Minnesota State Retirement System (MSRS-Unclassified) coverage groups; authorizes transfers from MSRS-Unclassified to MSRS-General up to one month after termination of employment; removes all retroactivity to MSRS-Unclassified annuities; and revises the MSRS/Public Employees Retirement Association (PERA) combined payment provision.

The article also makes a number of changes related to the Public Employees Retirement Association (PERA), including provisions that increases death while active survivor benefits when benefits are deferred, authorize health insurance withholding for certain public safety retirees of various plans, revise receivables allocation procedures for various plans, clarify the included employee provision and elected official requirements to commence annuity payments, clarify the governmental subdivision status of charter schools and mental health cooperatives, remove the requirement that the executive director be approved by the Senate, specify that no action for recovery of contributions will commence before the initial coverage date, clarify death while active or deferred surviving spouse provisions, temporarily offer full actuarial value service credit purchases for Comprehensive Employment Training Act (CETA) service, and repeal obsolete or redundant provisions.

The article also makes changes to the law governing the Teachers Retirement Association (TRA), generally of an administrative nature; proposes procedures to be used when making payments to TRA using pre-tax transfers; revises optional accelerated annuity procedures to recognize normal retirement ages older than age 65; corrects the bounceback annuity provision; clarifies applicable law for certain disability annuities; proposes account termination, restoration procedures; revises spousal notification procedures when member applies for a benefit; and repeals an inactive account small balance procedure.

Article 3: MSRS-Correctional Plan Membership Provisions. The article amends portions of the statutes governing the Correctional State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-Correctional) by adding the Department of Corrections positions of corrections program therapist (eight employees) and plant maintenance engineer lead (one employee) to MSRS-Correctional Plan coverage, by correcting the title of one currently included employment position in the Minnesota Extended Treatment Options Program (METO) and by including in plan coverage nine additional employment positions (30 state employees) at the Minnesota Security Hospital or in the Minnesota Sex Offender Program, and by removing from plan coverage one occupational title within the Department of Human Services without any incumbents, by requiring the Department of Corrections review committee to evaluate eligible prior service credit for potential transfer to MSRS-Correctional; and by providing for past service credit transfers for 2006 and 2007 newly included correctional personnel who desire to do so.

Article 4: Disability Benefit Changes. The article makes a number of changes to the disability benefit programs of the various retirement plans administered by the Public Employees Retirement Association (PERA), including:

- New disability categories are created, to replace the existing use of “duty” and “non-duty” to defined categories of disabilitants. As revised, a duty disability is a disability (physical or psychological) related to performing job-related duties that present inherent dangers, rather than being any disability that occurs or is related to being on duty. Regular disability, which replaces non-duty disability in existing statutes, is any job-related disability resulting from activity that did not present inherent danger, and also all disabilities resulting from any non-duty activity.
- Duty disabilities will be capped at 60 percent of the high-five salary, rather than 60 percent plus three percent of the high-five for each year of service over 20. Regular disabilities are capped at 45 percent of the high-five salary, rather than being computed like a service annuity based on actual service, with a minimum benefit of 45 percent of the high-five.
- Disabilitants (duty-related and regular) who are at least 55 at the time of disability but have less than 20 years service in duty disability cases, or 15 years service in regular disability cases, can receive disability benefits for five years, then the disability benefit must terminate.
- The disability benefit is converted to a retirement annuity when the member reaches age 55; or for those who are 55 when the disability commenced, on the five year anniversary of the disability; or when a member elects to convert to an early retirement annuity rather than the disability benefit.
- Disability benefits can be retroactive for up to 90 days if salary or salary-equivalent benefits were not received during that period.
- Disability benefits are not allowed if disability is due to illegal drug use and the individual has not taken part in a rehab program and ceased drug use.
- Three years of service, rather than one year of service, will be required to qualify for surviving spouse annuities if the member’s death was not a line-of-duty death. (A “line-of-duty death” is a new term defined as a death that occurs while performing duties specific to protecting the property and personal safety of others and that present inherent dangers specific to the positions covered by the PERA-P&F. A “not-line-of-duty death” is any death that is not a line-of-duty death.)
- Surviving spouse benefits in death-while-active situations are increased from 50 percent to 60 percent of final salary in line-of-duty death situations, and the family maximums related to line-of-duty deaths are revised accordingly.
- Early retirement (by any individual who becomes a PERA-P&F member after June 30, 2007, or by a former member who is reinstated after that date) will require a reduction of .2 percent for each month that the individual is under age 55, rather than one-tenth.
- The last date for filing a disability benefit application is revised from three years after termination to 18 months after termination;
- Medical reports supporting a disability application are required to include expectations for improvement, and where recovery is expected, an estimate of the date on which the medical professional believes the individual will have recovered from the disabling event;
- A report from the employer is required that there is no available work that the individual could perform, including documentation, if requested by PERA, of all steps the employer has taken to provide continued employment for the individual and to accommodate the individual’s limitations;
- Any application for duty-related disability is required to tie the disability to specific duty-related functions or actions which are consistent with the inherent dangers of positions eligible for PERA-P&F and PERA-Correctional membership;
- Appeals to the PERA Board of the Executive Director’s disability determinations are permitted within 60 days after the Executive Director’s determination rather than within 45 days; and allows the Executive Director to require the participant to take part in a fact-finding session conducted by an administrative law judge and/or a vocational assessment conducted by a qualified rehabilitation counselor.
- PERA’s trial work period provision is restricted to PERA-General members rather than members of all PERA plans; and
- Other changes of an administrative nature are made, largely striking language in existing PERA, PERA-P&F, and PERA-Correctional statutes to be moved to a new proposed section.

Article 5: Health Care Facility Privatizations. Includes employees of the Lakefield Nursing Home, the Lakeview Nursing Home in Gaylord, Minnesota, and the Oakland Park Nursing Home in the special privatization provisions of the Public Employees Retirement Association (PERA). Extends to January 2008, the time deadline for the Hutchinson Area Health Care to privatize and avail itself of the enhanced deferred annuity augmentation rate.

Article 6: Statewide Retirement Plan Appeals Process. The article replaces the statutory appeals procedures for the Minnesota State Retirement System (MSRS) and the Teachers Retirement Association (TRA) with a uniform appeals procedure for all of the statewide retirement plans, including the Public Employees Retirement Association (PERA), providing statewide public pension members, former members, and beneficiaries with an opportunity to have plan administrative decisions reviewed by the governing body of the plan, notice of the reasons for an adverse determination and of the appeals process whenever there is a benefit denial, modification, or termination, an opportunity for a plan member to

submit relevant materials in connection with a review, an opportunity to appear at the board review hearing, a board decision on the review request based on the record, and an opportunity to have the board review determination appealed to the State Court of Appeals.

Article 7: First Class City Teacher Retirement Fund Association Changes. The article amends or repeals portions of Minnesota Statutes, Chapters 354A and 356, the laws relating to the first class city teacher retirement fund associations, and retirement generally, by replacing the current St. Paul Teachers Retirement Fund Association post-retirement adjustment mechanism, consisting of a two percent annual automatic increase and a periodic investment-gain-funded adjustment based on five-year average rates of return performance results, is replaced by an adjustment equal to the increase in the federal Consumer Price Index up to five percent annually, but not in a negative amount, and by extending the current St. Paul Teachers Retirement Fund Association full funding amortization target date of 2021 to 2038.

Article 8: Minneapolis Employees Retirement Fund (MERF) Liquidity Changes. The article permits the MERF board to invest some or all of the fund's assets with the State Board of Investment (SBI) through the Minnesota Supplemental Investment Fund, a mutual fund-like family of investment accounts, or the Minnesota Combined Investment Funds, an investment pool made up of the active member assets of the various statewide retirement plans, permits that the transfer of assets between the MERF active member investment account (the MERF Deposit Accumulation Fund) and the MERF retired member investment account (the MERF Retirement Benefit Fund), if the Deposit Accumulation Fund has insufficient assets to make the transfer upon the retirement of an active member, be made with an internal interest-bearing promissory obligation, with interest at the rate of five percent, plus the percentage increase in the Consumer Price Index over the period, and the interest and the principal of the obligation would be payable first from any balance in the Deposit Accumulation Fund, and repeals a statutory provision requiring the City of Minneapolis to provide sufficient assets to make required transfers to MERF's retired fund at the time of retirement.

Article 9: Minneapolis Police and Firefighters Relief Associations Changes. A Minneapolis Police Relief Association pre-January 1, 2006, surviving spouse benefit amount provision is eliminated and any Minneapolis Police Relief Association surviving spouse benefit payments are made consistent with the post-December 31, 2005, benefit level before January 1, 2006. The amount available for distribution as Minneapolis Firefighters Relief Association annual "thirteenth check" post-retirement adjustment is increased from one-half of one percent of relief association special fund assets to one percent of relief association special fund assets.

Article 10: Volunteer Firefighter Benefit Changes. The article corrects an error in the 2006 creation of a volunteer firefighter supplemental survivor benefit, clarifies that a survivor supplemental benefit is only double the pre-2007 supplemental benefit amount, and increases the volunteer firefighter supplemental benefit amount to a maximum of \$1,695.

Article 11: Various Retirement Law Changes. Permits survivors of former legislators who die before age 55 to elect optional annuity form when the former legislator would have reached age 55, including the surviving spouse of a former legislator who died March 5, 2007. Permits the early division with ex-spouse of a Legislators Retirement Plan retirement allowance. Includes in the General State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-General) employees of the Middle Management association who are not on-leave state employees. Includes in the State Patrol Retirement Plan the Gang and Drug Oversight Council Coordinator. Permits annuity withholding for health, accident, and long-term care insurance premiums for retired public safety employees. The Public Employees Retirement Association (PERA) staff is added to the list of those state entities eligible to participate in the post-retirement option provided under Minnesota Statutes, Section 43A.346. The 2006 special early retirement program was reenacted with a 2009 sunset date and is expanded to include all public pension plan members other than elected officials and reemployed annuitants. Surviving spouses of the Thief River Falls Police Trust Fund are granted a one-time 3.5 percent post-retirement adjustment with a \$640 per month maximum survivor benefit.

Article 12: Small Group/Single Person Provisions. Authorizes various individuals to purchase prior service credit or prior salary credit, file a delayed disability benefit application, or receive back annuity payments where a Combined Service Annuity was delayed by pension plan error. Exempts certain Anoka County medical examiner employees acquired from a former private sector contractor to be exempt from reemployed annuitant earnings limitations.
